ceramics

É um produto composto a partir de matérias primas naturais, muito finas e selecionadas, que após um processo de alta tecnologia de ultra compactação e sinterização, confere ao produto final uma superfície de alta performance com propriedades únicas para várias aplicações. Possuem superfície lisa sem poros, o que os torna resistente a infiltrações, manchas e altas temperaturas.

Resistente à altas
temperaturas

Leve

Impermeável

Resistente a
manchas

Resistente à
abrasão

Higiênico e de
fácil manutenção

Indicado para áreas
de alto tráfego
